Objectives

Full-immersion course covering ultrastructural techniques that can be applied to the study of several biological subjects (cells, tissues, organisms) including bioarchaeological materials.

Target

The school is open to all postgraduate students, especially to PhD students, post-doctoral researchers and senior researchers from Universities, research institutes, clinics and industries. Undergraduate students will be also welcome. A maximum of 10 participants will be selected on the basis of their CV.

4 credits will be acknowledged by the University of Pisa according to the European Credit Transfer System (ECTS), upon passing a final test covering the major topics.

Scientific Committee

P. Lenzi, A. Falleni, A. Salvetti, L. Rossi, P. Lucchesi, F. Verni, L. Modeo, G. Lazzeri, R. Ruffoli
